Course Information

Course title	Agentic AI for Affiliate Marketing
Course code	C1319
Duration	1 day - 7.5 instructional hours
Timing	9:30am – 5:30pm; 30-minute lunch break; refreshments taken during activity time
Mode	Instructor-led concept briefings, demonstrations and connected Claude Cowork, Skills, MCP and deterministic-data labs
Trainer	Dr Alfred Ang

Learning Outcomes

- LO1: Analyze affiliate marketing trends and provide updates to partners on new retail and hospitality products and services.
- LO2: Coordinate with affiliates using strategic research to align partnerships and develop an effective affiliate portfolio.
- LO3: Prepare affiliate campaign reports aligned to strategy and ensure compliance with marketing policies and practices.

Facilitation and Evidence Strategy

- Brief technical concepts with editable diagrams, data contracts, decision rules and worked metrics; keep click paths in the Learner Guide.
- Demonstrate each workflow with supplied sample data before connecting training credentials.
- Ask learners to predict the failure path, execute the test, then capture safe evidence.
- Use lab acceptance checklists as progress checks and remediation guides.
- Never demonstrate an irreversible schedule or send to a production audience.

One-Day Schedule

Day 1 • 9:30am – 5:30pm - Research offers, build the partner portfolio, run controlled campaigns and report

Time	Minutes	Mode	Topic / Activity

Resources and Contingencies

- Concept-led PowerPoint deck and PDF mirror.
- Learner Guide with detailed procedures and PDF mirror.
- Six self-contained lab folders with README, checklist, supplied records, deterministic validators and evidence templates.
- If a connector is unavailable, use the supplied offline files and preserve the same data contracts.
- If a connector denies access, record the permission boundary and continue with the read-only fallback; never broaden scope or expose credentials.
